

# THE IMPORTANCE OF INDUSTRIAL LABEL PRINTERS IN THE WORKPLACE

## 2.8 MILLION

Proper labeling of potential workplace hazards is the easiest way to dramatically decrease and eliminate the vast majority of these injuries.

Workplace injuries occur every year in the US alone.

## OSHA

(OCCUPATIONAL SAFETY & HEALTH ADMINISTRATION)

Did you know...

The **second** most frequented cited violation is **HAZARD COMMUNICATION FAILURE** meaning lack of safety signage.\*\*

## OSHA AVERAGE FINING

Fines for serious offenses can be up to \$7,000

...and for repeat violations, up to \$70,000

## APPLICATIONS

Label and sign printer can be used for ANY application for example:

### Safety

Keep your staff safe by labeling all workplace hazards.

### Hazmat

Chemical containers should be labeled with the content and the risks the chemical poses.

### First Aid

Identify locations of first aid equipment like first aid kits and eyewash stations

### Barcodes

Create barcode labels for any purpose. Barcode labels are often critical for shipping and inventory tracking.

### Arc Flash

Arc flash explosions are a preventable hazard. Label your arc flash boundaries, PPE requirements & other info.

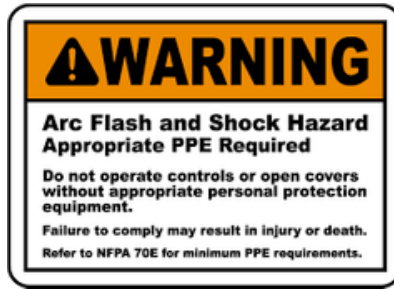

### Organization

Create labels to organize your work and storage areas.

### Inventory

Create labels for your warehouse racks and monitor your inventory levels.
