## Specializing in tapes, labels, and materials for critical environments

[CLEANROOMTAPE.COM](http://CLEANROOMTAPE.COM)

At UltraTape, we're excited to support the industries that are transforming the world. We are an innovator in the area of cleanroom adhesive tapes and labels used in advanced technology settings. Since 1992, we have led the industry in creating customized particle-free, residue-free cleanroom products for critical environments.

**WE PROVIDE TAPE AND LABEL SOLUTIONS FOR A VARIETY OF APPLICATIONS AND INDUSTRIES:**

- Semiconductor
- Pharmaceutical
- ESD Anti-Static
- Extreme Temperature
- Aerospace
- Cleanroom Construction
- Medical
- Environmental Health and Safety
- Cryogenics

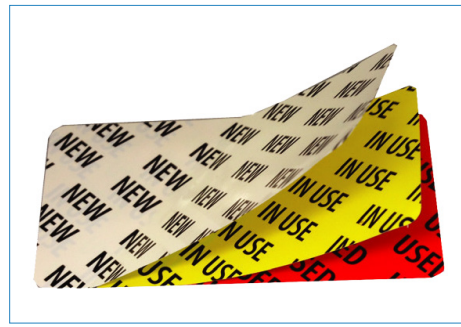

**OUR PRODUCTS ARE CUSTOMIZED TO MEET YOUR SPECIFICATIONS:**

- Particle-free
- Custom Size and Print
- Low Outgassing
- Custom Construction
- Cleanroom Certified
- Chemical Resistant
- Residue-free

**CLEANROOM TAPES:**

Our cleanroom tapes are made from non-particulating materials on a plastic core. Each roll is processed through our proprietary clean manufacturing process.

**CLEANROOM LABELS:**

Our specialty cleanroom labels can be customized for your specific application. We provide special packaging, core, backing, and adhesive materials to meet any requirements.

**GRAPHIC OVERLAYS:**

Our custom graphic overlays, faceplates and front panels make a powerful first impression for you equipment. They are available in various durable materials and can be die-cut to custom specifications.

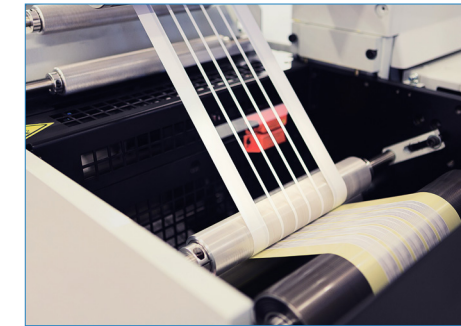

**MATERIAL DEVELOPMENT AND CONVERTING SERVICE**

For applications where a commercially available solution is difficult to find, we partner with you to create a product that meets the needs of your application.

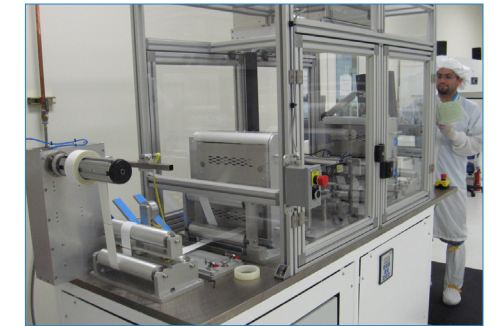

**MATERIAL DEVELOPMENT:**

Our full service R&D lab and engineering staff are here to help develop material and adhesive solutions that are ideal for your needs.

**CONVERTING SERVICES:**

We offer a host of converting services including precision slitting, die-cutting, printing that help us customize a product specifically for you.

**CLEANROOM EXTRUSION COATING LINE:**

We offer extrusion coating of soft thermoplastic elastomers on substrates including PET, PE, PC, and nylon. This line is designed to work with high-tack elastomers and hot-melt adhesives and is available for contract manufacturing, engineering, and development.

**PRINTING SERVICES:**

Our advanced printing technologies, including screen, flexographic, and digital, enable us to customize your tape, label or overlay just for you.

**OUR ULTRACLEAN PRODUCTS:**

- Feature the highest cleanliness level for today's critical environments
- Are suitable for Class 1 (ISO Class 3) to Class 1,000 (ISO class 6) cleanrooms
- Undergo a proprietary web cleaning process
- Are individually inspected and wrapped in cleanroom polyethylene bags

**OUR CLASSIC CLEAN PRODUCTS:**

- Feature cleanroom packaging that keeps products safe from excess environmental contamination prior to use
- Are suitable for Class 10,000 (ISO Class 7) to Class 100,000 (ISO Class 8) cleanrooms
